(b) Provide a brief summary of the corporate governance policy that the board of directors has adopted. Please emphasize the policy/ies relative to the treatment of all shareholders, respect for the rights of minority shareholders and of other stakeholders, disclosure duties, and board responsibilities.

In the Revised Manual on Good Corporate Governance which the Board approved on February 21, 2011, the Board of Directors and Management of the company committed themselves to the principles and best practices of good corporate governance as contained in the Manual and acknowledge that the same may guide the attainment of our corporate goals. The manual institutionalizes the principles of good corporate governance in the entire organization. The Board of Directors and Management, employees

¹ Reckoned from the election immediately following January 2, 2012.

and shareholders, believe that corporate governance is a necessary component of what constitutes sound strategic business management and will therefore undertake every effort necessary to create awareness within the organization as soon as possible.

The Board of Directors recognize that the most cogent proof of good corporate governance is that which is visible to the eyes of its investors. Therefore, the Board of Directors believe that the following shareholder rights should be extended to all shareholders of the Company:

- Shareholders shall have the right to elect, remove and replace directors and vote on certain corporate acts in accordance with the Corporation Code.
- Cumulative voting shall be used in the election of directors.
- A director shall not be removed without cause if it will deny minority shareholders representation in the Board.
- All shareholders shall have pre-emptive rights in accordance with law, except to the extent that the same is denied in the Articles of Incorporation, and even then, the power to deny pre-emptive rights is used only sparingly. They shall have the right to subscribe to the capital stock of the Corporation. The Articles of Incorporation shall lay down the specific rights and powers of shareholders with respect to the particular shares they hold, all of which shall be protected by law so long as they shall not be in conflict with the Corporation Code.
- All shareholders shall be allowed to inspect corporate books and records including minutes of Board meetings and stock registries in accordance with the Corporation Code and shall be furnished annual reports, including financial statements, without cost or restrictions.
- All shareholders shall be provided, upon request, periodic reports which disclose personal and professional information about the directors and officers and certain other matters such as their holdings of the Corporation's shares, dealings with the Corporation, relationships among directors and key officers, and the aggregate compensation of directors and officers.
- The minority shareholders shall be granted the right to propose the holding of a meeting, and the right to propose items in the agenda, provided the items are for legitimate business purposes, and in accordance with law, jurisprudence and best practice.
- The minority shareholders shall have access to any and all information relating to matters for which the management is accountable for and to those relating to matters for which the management shall include such information and, if not included, then the minority shareholders shall be allowed to propose such matters in the agenda of the shareholders' meeting, being within the definition of "legitimate purposes", and in accordance with law, jurisprudence and best practice.
- Shareholders shall have the right to receive dividends subject to the discretion of the Board.
- All shareholders shall have appraisal rights as provided under the Code.

It shall be the duty of the directors to promote shareholder rights, remove impediments to the exercise of shareholder rights and allow possibilities to seek redress for violation of their rights. They shall encourage the exercise of shareholders' voting rights and the solution of collective action problems through appropriate mechanisms. They shall be instrumental in removing excessive costs and other administrative or practical impediments to shareholders participating in meetings and/or voting in person. The directors shall pave the way for the electronic filing and distribution of shareholder information necessary to make informed decisions subject to legal constraints.

The Board shall be transparent and fair in the conduct of the annual and special stockholders' meetings of the corporation. The stockholders shall be encouraged to personally attend such meetings. If they cannot attend, they shall be apprised ahead of time of their right to appoint a proxy. Subject to the requirements of the bylaws, the exercise of that right shall not be unduly restricted and any doubt about the validity of a proxy should be resolved in the stockholder's favor.

(c) How often does the Board review and approve the vision and mission?

The Board as recommended by senior management reviews the vision and mission of the Company as it

deem appropriate or at least once a year. The Board ensures that the plans and actions of the Company are aligned with its vision and mission. The vision, mission and values of the Company was reviewed, updated and approved in July 2014. Corporate strategies are reviewed and discussed every semester as part of the group planning meetings. The last planning meeting was in July 2014.

Does it ensure that at least one non-executive director has an experience in the sector or industry the company belongs to? Please explain.

Yes, criteria for the nomination/election of a non-executive director are 1) a practical understanding of the business of the company, 2) should possess previous business experience, 3) should have a working knowledge of the statutory and regulatory requirements affecting the Company, including the contents of its Articles of Incorporation and By-Laws, the requirements of the Commission, and where applicable, the requirements of other regulatory agencies and 4) shall be a member of good standing in a relevant industry, business or professional organization.

Also, construction of the 54 MW wind energy project in San Lorenzo, Guimaras is already underway, with commercial operations expected to commence within the year. We expect the company's profits to increase in 2015 after commercial operations of the SLTEC coal power plant and San Lorenzo Wind Farm have commenced.

Answer: The capacity of the San Lorenzo Wind Farm is 54 MW. The possibility of not being able to obtain from the Department of Energy a Certificate of Endorsement for FIT Eligibility has been factored in by the Company in preparing its financial model and steps have been taken to ensure that the San Lorenzo Wind Farm Project will be able to finance its operations and debt obligations even if it is constrained to sell in the WESM without the benefit of the FIT rate.
